

Restaurants

About Us

For 50 years, Cunninghams EPOS Group has been a leading provider of point of sales for a wide range of sectors, including restaurants, bars, pubs and holiday parks.

Our expertise and knowledge have helped restaurants across the UK to streamline operations and enhance customer service.

How We Help Restaurants

As a restaurant, you'll be running a busy operation, so you need an EPOS solution to make your life easier and more efficient. That's where we can help! Our solution includes:

Stock Management

Stay on top of item availability. Terminals can be configured with accurate countdowns on products and for changeable specials.

Integrated Chip & PIN

Our restaurant EPOS system integrates with multiple payment providers, allowing bills to be settled at the table using the chip & PIN terminal.

Table Management

With a colour-coded floor plan, our restaurant EPOS system gives you a simple overview; is your customer enjoying their starter or waiting for their bill.

Powerful Reports

Understand your restaurant better. Generate detailed insights to help you make the right decisions for your business.

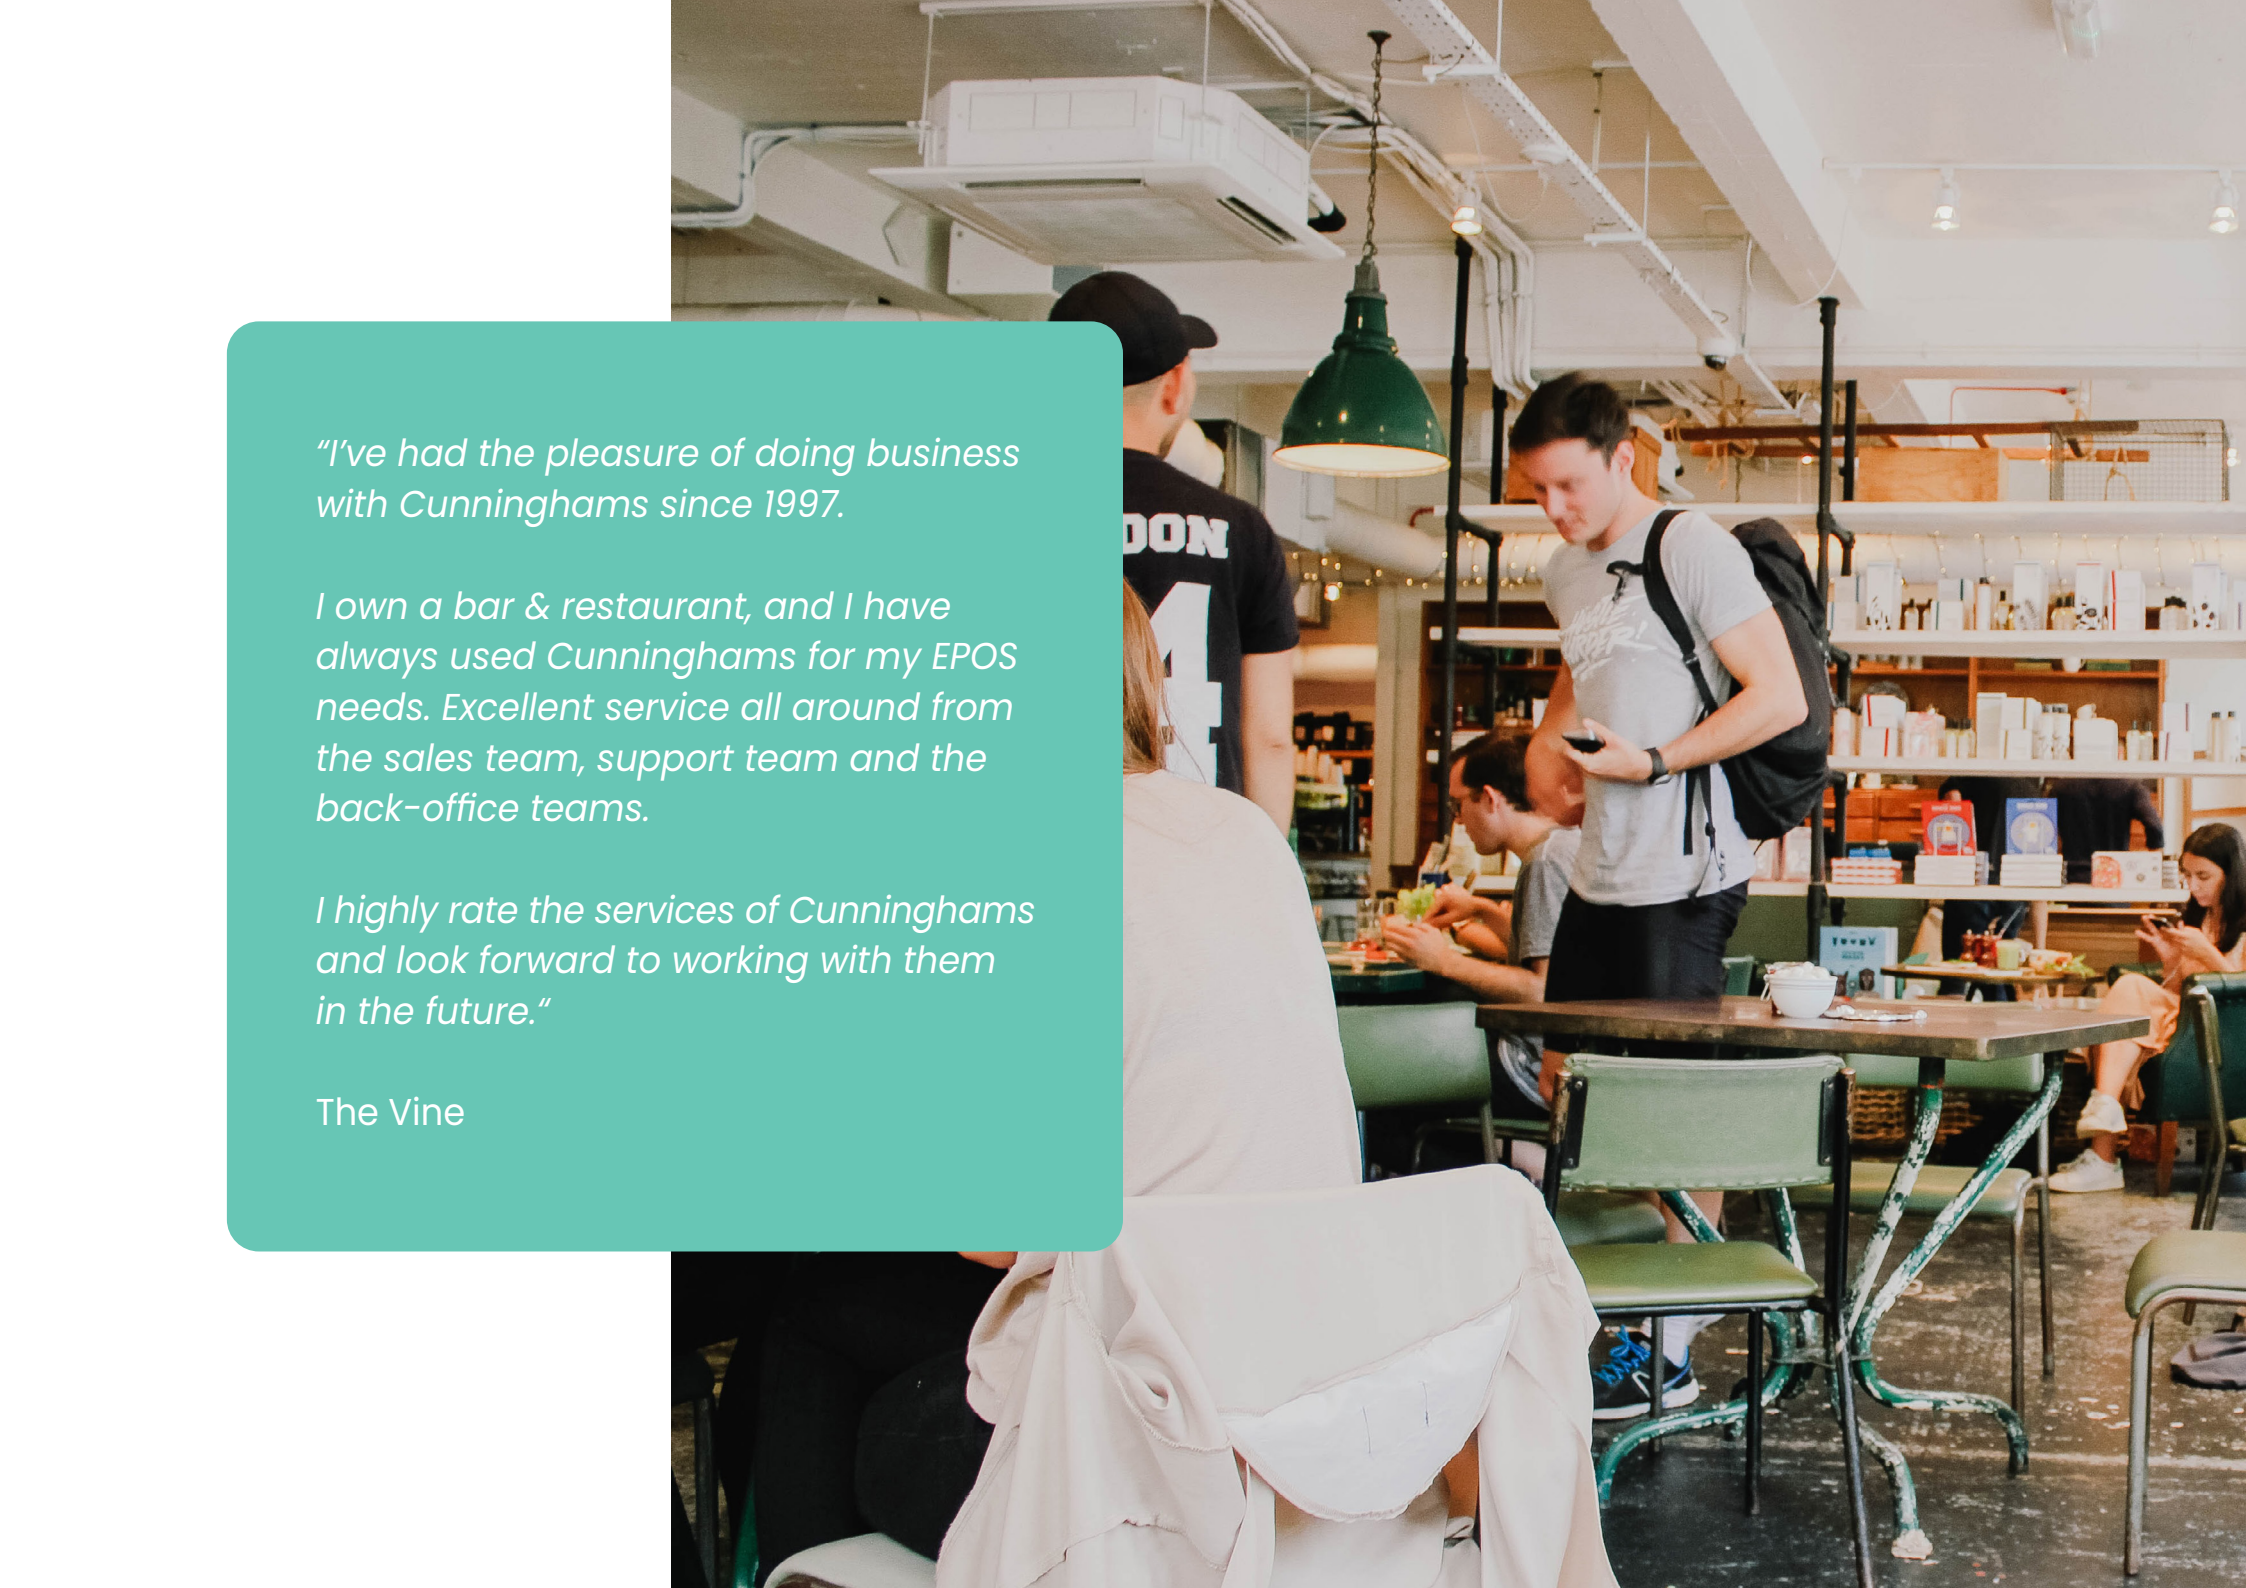

Deposit Management

Give customers the option to pay deposits over the phone and add the funds to the table on arrival.

Online Ordering

Our integrations with HubRise and Preoday make online ordering simple. Let customers order and pay online, for collection or delivery, or reduce queues during peak times by introducing 'order to table'. Connect directly to leading platforms like Just Eat & Deliveroo.

"I've had the pleasure of doing business with Cunninghams since 1997.

I own a bar & restaurant, and I have always used Cunninghams for my EPOS needs. Excellent service all around from the sales team, support team and the back-office teams.

I highly rate the services of Cunninghams and look forward to working with them in the future."

The Vine

Merchant Services

Tired of juggling different EPOS and payment providers? Make the switch to Cunninghams EPOS Group, where you'll receive an all-in-one EPOS and payment solution that brings everything together under a one roof.

 **EPOS system**  **Payments**  **Support**

Reduced Costs

We're proud to have helped our clients save up to 30% on their operational costs by consolidating their EPOS and payments management.

Simple Set Up

We'll set you up to take payments in no time with the latest EPOS and Android Chip & PIN technology, designed with convenience, security (P2PE compliant) and simplicity in mind.

No Hidden Charges

A totally transparent payments solution. No hidden transaction fees.

Integrated Payments

Say goodbye to manual order input on your EPOS and card terminal. Integrate payments to eliminate errors, speed up service and save on missed revenue.

Easy Switch

Currently with another merchant services provider? We might even be able to cover the cost of buying out your contract.

Support

Benefit from on-site, remote diagnostics and telephone calls from our highly skilled team. Plus an account manager by your side, as a dedicated point of contact.

Enhanced Customer Experience

Offer convenient 'pay at table', cashback, tips and Card Not Present (CNP) transactions.

Experience Quantum Go

All-in-One Portable EPOS & Payment Solution for Restaurants

Take orders and payments from any location using just one device – whether you're on the shop floor, at a market stall, or attending an event!

- ✓ Queue-busting solution for busy trading hours
- ✓ Compact design, ideal for limited counter space
- ✓ Fast and efficient table service
- ✓ Instant access to allergy and nutritional info
- ✓ Secure payments

Flexible EPOS Finance Options

When it comes to financing your new EPOS solution, we understand that one size doesn't fit all, which is why we offer a variety of funding options. Choose the option that's right for your business.

Purchase Outright

Take complete ownership of your EPOS solution by purchasing it outright, including both hardware and software.

Our Purchase Outright option allows you to acquire the system with a one-time payment. For ongoing support and maintenance, we offer plans charged on a monthly, quarterly or annual basis, ensuring your system stays up-to-date and optimised for peak performance.

Lease

Spread the cost of your EPOS solution over a span of 3-5 years with our Lease option.

We collaborate with leasing companies to ensure a budget-friendly approach to acquiring our advanced EPOS solution. Leasing not only conserves your capital but also provides you with the flexibility to upgrade your system as technology evolves. In most cases, the cost of leasing an asset is deductible as a business expense, so this can reduce your overall tax bill.

Rental

Simplify your financial planning with our all-inclusive Rental option. For a fixed monthly price, you'll gain access to a comprehensive EPOS solution that includes hardware, software, support and maintenance. You can even include payments with our merchant services solution.

Our Rental option allows you to allocate resources efficiently while reaping the rewards of a feature-rich EPOS system. Focus on growing your business while we take care of your EPOS needs.

Our Services

We can provide a variety of services to ensure your team and your business makes the most out of your point of sale system.

Site Surveys

Preparation is the key to success. Our Account Managers complete an on-site survey to ensure that our installation engineers can implement your system with minimal disruption to your customers and business.

Consultation

These consultations are key to the project running smoothly. It is important that we have full knowledge of your business to allow us to provide you with a system that is fully configured to your requirements, ensuring that it is available to use from day one.

Project Management

For 4 decades, a personal approach has been paramount to our success. Your dedicated Account Manager will work closely with you and our project team to plan, coordinate and deploy your EPOS solution, including full bespoke system configurations.

On-Site Training

On-site training tailored around your business needs.

Help Desk & On-Site Support

Always there when you need us; on-site, online and telephone support from our own highly skilled nationwide engineers and support teams.

Book a demonstration

To find out how your business could benefit, contact our team today to arrange a demonstration!
